SULTANATE OF OMAN

With the zest to support digital India and to boost Research and Development at international platform, Prince Shri Venkateshwara Padmavathy Engineering College Chennai has organized 12 th International Conference on Contemporary Engineering and Technology 2024 (ICCET) India on March 23rd - 24th, 2024. It gives me immense pleasure in writing this message as an Speaker of this conference. The theme of the conference is “Virtual Reality”. The proceedings of ICCET include abstracts for oral presentations provided by enthusiastic students, practicing researchers, industry personalities and academicians. ICCET was a great platform for all the technocrats. The idea behind this conference was to help and motivate researchers to carry forward their work to the next level. As Editor of ICCET 2024, I anticipate that these proceedings would be of immense value and will be definitely useful to researchers in their practice or thinking process. This collection will also offer a window for new perspectives and directions in the respective horizons
