

PROF. DR.CHRISTO ANANTH
PROFESSOR, SAMARKAND STATE UNIVERSITY, UZBEKISTAN

ICCET 2024 Conference have a strong zest to bring researchers together to discuss and enhance their knowledge in the respective domain. ICCET is not just a conference but a great meet up for all the technocrats. Such meetups always help us to collaborate with the people of interest. I am stunned and amazed by this flamboyant aura of technology and happy to see the efforts taken by the current generation and of course the diversity was something that left me awestruck. I appreciate the efforts taken by all the researchers and wish them best of luck for their future success.
